#### 3.1. Allergology

#### 3.2. Clinical analysis

##### 3.2.1. Genetic studies

includes exclusively those essential for diagnosis and / or treatment pautar in patient symptomatic and affection and also have a high diagnostic yield.

It includes the study of the BRCA1 and BRCA2 genes in the following indications:

A) patient with no personal history of breast or ovarian cancer that cancer meets the following requirements:

- with 2 or more relatives of 1st or 2nd degree less than 50 years affected by breast cancer
- with 2 or more relatives of 1st or 2nd degree affected by ovarian cancer at any age
- with 2 or more relatives of 1st or 2nd degree less than 50 years affected by breast cancer and ovarian cancer at any age

B) patient over 50 years with a history of breast cancer

- with 2 or more relatives of 1st or 2nd degree less than 50 years affected by breast cancer
- with 2 or more relatives of 1st or 2nd degree affected by ovarian cancer at any age
- with 2 or more relatives of 1st or 2nd degree less than 50 years affected by breast cancer and ovarian cancer at any age

C) male patient with breast cancer

D) patient under 50 years with breast cancer

breast E) patient with ovarian cancer (+/-) cancer

**PCA3 molecular analysis and DNA Typing HLA A / B / C / DQ / DR gene (the latter except for transplant patient affected) is excluded.**

#### 3.3. Pathological anatomy

Includes performing the following therapeutic targets BRAF, ALK, K-RAS, N-RAS, C-ERB2 / HER2, EGFR, C-Kit before administration of certain drugs, as long as the sheet of said drug established by the Spanish Agency for Medicines and Health Products, determination is required. These criteria apply equally specializing in genetic studies.

#### 3.4. anesthesiology

#### 3.5. Vascular surgery

Remains excluded he treatment sclerosing microfoam with foam or varices.

#### 3.6. Digestive system

Fibroscan diagnostic test is covered, **once a year per insured, only to evaluate the evolution of the degree of liver fibrosis in chronic liver disease, excluding those that have some relation to alcoholism.**

The endoscopic submucosal dissection technique **It is included only for treatment of lesions of the gastric / colorectal, premalignant or malignant mucosa incipient in which is discarded conventional polypectomy** and that proposes the surgical treatment.

#### 3.7. Cardiology

#### 3.8. Cardiovascular surgery

It is excluding the cryoablation technique and percutaneous techniques for replacing heart valves.

**3.9. General Surgery and apparatus Digestive**

It includes surgery laparoscopically.

**3.10. Maxillofacial Surgery**

It includes diagnosis and surgical treatment from the diseases Y trauma involving exclusively to the jaw, jaw and facial bones themselves.

**They are excluded own treatments the specialty from Odontostomatologia, A) Yes as aesthetic treatments and / or having functional purpose of the oral area of the patient, among others surgeries orthognathic, preimplantológicas Y preprosthetic.**

**3.11. Orthopedic Surgery and Traumatology**

It includes surgery arthroscopically.

**3.12. Pediatric surgery**

In identical terms and conditions as the adult surgery.

**3.13. Reconstructive surgery**

**3.14. Thoracic surgery**

**3.15. Dermatology**

**3.16. Endocrinology**

**3.17. Geriatrics**

**3.18. Hematology**

Includes both autologous bone marrow progenitor cells as peripheral blood, exclusively for hematologic tumor treatments lineage.

**3.19. Internal Medicine**

**3.20. Nuclear medicine**

**Contrast media are SANITAS account.**

**PET and PET / CT They are hedged exclusively for the indications authorized by the Spanish Agency for Medicines and Health Products with drug-fludeoxyglucose 18 (18 FDG).**

These indications are specifically the following:

**A) Oncology**

**Diagnosis:**

- characterization pulmonary nodule lonely.
- Detection of cancer of unknown origin revealed for example by cervical adenopathy, liver or bone metastases.
- Characterization of a pancreatic mass.

**staging:**

- Head and neck tumors, including assisted guided biopsy.
- Primary lung cancer.
- Locally advanced breast cancer.
- Esophagus cancer.
- Pancreatic carcinoma.
- colorectal cancer, especially in recurrences.
- malignant lymphoma.
- Malignant melanoma, Breslow more 1.5 mm or lymph node metastases at initial diagnosis.

**monitoring the response to treatment:**

- malignant lymphoma.
- Head and neck tumors.

**Detection in case of reasonable suspicion of recurrences:**

- Gliomas with high malignancy (III or IV).
- Head and neck tumors.
- Thyroid cancer (non-medullary): patients with increased serum thyroglobulin and body scintigraphy negative radioiodine.

- Primary lung cancer.
- Breast cancer.
- Pancreatic carcinoma.
- Colorectal cancer.
- Ovarian cancer.
- malignant lymphoma.
- malignant melanoma.

**B) Cardiology:**

- Assessment of myocardial viability in patients with severe left ventricular dysfunction who are candidates for revascularisation when techniques

conventional imaging is inconclusive.

**C) Neurology:**

- Localization of epileptogenic foci in the presurgical evaluation of partial temporal epilepsy.

**D) Diseases infectious or inflammatory:**

Localization of abnormal foci guiding the etiologic diagnosis in case of idiopathic fever.

**Diagnosis of infection if:**

- Presumptive chronic infection bone or adjacent structures osteomyelitis, spondylitis, Discitis osteitis, even when there are metallic implants.
- diabetic patients with foot indicative neuroarthropathy from Charcot, osteomyelitis or soft tissue infection.
- Painful hip prosthesis.
- vascular prosthesis.
- Detection septic metastatic foci in case of bacteremia or endocarditis.

**Detection of the extent of the inflammation in case of:**

- Sarcoidosis.
- inflammatory bowel disease.
- Vasculitis that affects large vessels.

**Monitoring of treatment:**

alveolar echinococcosis unresectable in detecting active centers during parasite and after medical treatment discontinuation.

**3.21. nephrology**

It includes the techniques from dialysis only in acute. **Excluded chronic dialysis and hemodialysis treatments.**

**3.22. Pneumology**

**3.23. Neurosurgery**

It includes assisted surgery and surgical navigation Intraoperative Electrophysiological Monitoring.

**3.24. Clinical neurophysiology**

**3.25. Neurology**

**3.26. Obstetrics and Gynecology**

It includes gynecological laparoscopic interventions and basic study and diagnosis of infertility and sterility.

Family planning also includes: tubal ligation, IUD implantation (**being the device by the Insured**)

tracing of the treatment with and the anovulatory.

They are included, after medical assessment, the following genetic tests: Gene Mutation Factor V Leiden, Prothrombin Gene Mutation 20210 and the study of the BRCA1 and BRCA2 genes in

mentioned indications.

**Excluded studies of MTHFR and Factor XII Mutation. Any other distinct genetic test**

**already above, it shall be excluded.**

**Excluded:**

- Breast tomosynthesis.
- platforms genomic for he prognosis of breast cancer.
- Determination of fetal DNA in maternal blood.

### 3.26.1. Breast Surgery

It is including breast surgery in the following situations:

- benign tumor processes. Excludes subsequent breast reconstruction.
- malignant tumor processes: includes breast surgery and prophylactic surgery affects the contralateral breast considering a therapeutic option after the result of BRCA1 and BRCA2. It includes subsequent breast reconstruction.
- no breast cancer affected people in whom prophylactic breast surgery is considered a therapeutic option after the result of BRCA1 and BRCA2. It includes subsequent breast reconstruction.

### 3.26.2. Neonatology assistance

includes the medical examination, vaccine delivery, and performing those tests that are performed systematically newborn during their first 48 hours of life, in accordance with the applicable care protocol as each region, **excluding any medical service that is the result of a disease or complication at birth.**

### 3.26.3. Newborn care

Includes the costs of health care to the newborn, **provided when discharged as secured in SANITAS and expect coverage.**

### 3.27. Ophthalmology

It includes the photocoagulation **exclusively for retinopatias ischemic, macular edema, glaucoma and retinal peripheral lesions (holes or tears), the treatment of keratoconus and surgery for corneal transplantation**

It is the cornea to be transplanted on behalf of Sanitas.

**Refractive surgery of any kind (for nearsightedness, farsightedness and astigmatism) is excluded**

### 3.28. Medical oncology

Prescription of treatment should always be performed by a specialist in Medical Oncology who is in charge of patient care. Treatments borne by SANITAS, provided they are implemented in medical center, both regime Oncology Unit Day, as in

income when he was necessary.

**Sanitas shall bear the expenditure**

to the products **farmacéuticos specifically cytostatics, whose commercialization be authorized in the domestic market and wherever used in accordance with the instructions contained in the product literature and whose administration**

be it by via **parenteral, in as many cycles as necessary.**

### 3.29. Otorhinolaryngology

It includes surgery by To be Y radio frequency.

### 3.30. Psychiatry

The psychiatric admission **only comprises treating acute outbreaks. It is limited to a maximum of 50 days per insured / year.**

### 3.31. Diagnostic Radiology-Diagnostic Imaging

includes the Common techniques diagnosis. Contrast media will be paid by SANITAS.

It also includes:

A) colonography performed by computed tomography (CT) the following:

- Cancer screening colon and poliposiscolónica in patients with no known medical history of colon cancer,

polyposis or illness inflammatory  
intestinal, always what present  
background family from these  
pathologies or are candidates for screening by age  
(from 50 years).

- Cancer screening colon and  
poliposiscolónica in patients in whom the  
colonoscopy conventional East  
contraindicated due to their clinical situation or entails a  
greater risk.
- To supplement conventional colonoscopy when it has  
not been able to reach the full length of the colon.

#### B) The CT angiography: **only for**

patients symptomatic what  
**low or intermediate probability present CHD, which  
is not possible perform a test to detect ischemia or  
it is negative or inconclusive; asymptomatic but  
screening positive ischemia patients or doubtful; to  
study coronary anomalies:**

suspected  
**abnormality or patient identification ride  
already diagnosed; for  
assessment prior pulmonary vein ablation of atrial  
fibrillation; Pre-study for coronary heart valve  
surgery and coronary evaluation of stents or  
grafts.**

Excluding the valuation of the calcium score.

#### 3.32. Radiotherapy

#### 3.33. Rehabilitation

It includes consultations aimed at the diagnosis,  
evaluation and prescription of physiotherapy treatments  
referred to in Physiotherapy coverage.

#### 3.34. rheumatology

#### 3.35. Urology

It includes vasectomy, he study and  
diagnosis of infertility and sterility lithotripsy and urinary  
tract.

It includes the Resonance magnetic  
Prostate multiparameter the following:

- local, regional or distant staging.
- Detection or guide for diagnostic biopsy for suspected  
clinical risk with negative results in previous biopsies.
- therapeutic drug monitoring.

**Excluded prostate interventions by any laser  
technique.**

## 4. Other health care services

### 4.1. Ambulance

This service is provided by land. They are only covered by  
this guarantee, transfers from the place where the insured  
is within the territory of the Spanish State to hospital  
where assistance under coverage will be provided to and  
from the home. They are also included transfers between  
centers

hospital located in  
different provinces where health care resources in the  
province in which resides the Insured are not sufficient to  
serve you.

**This provision does not include transfers required  
for treatments from  
physiotherapy, to perform diagnostic tests or  
consultations for assistance.**

video consultation  
Following the the rest instructions  
provided by Sanitas at all times.

## Section VI: Other aspects of insurance

### 1. Basis and loss of rights contract

**1.1. He this contract It has been reached on the basis of statements made by the Policyholder and the Insured in the health questionnaire contained in the insurance application, where he made questions about their health status, profession, practices sport Insured and in general those lifestyle habits that can have relevance for proper risk assessment that is the subject of insurance under this policy it remains essential that the Policyholder / Insured**

provide a truthful and complete information on questions raised by constituting them the basis for risk acceptance of this contract, which said Insurance Application is an integral part.

**1.2. The Policyholder has a duty, before the conclusion of the contract, to declare SANITAS, according to the questionnaire that it will submit, all the circumstances known to him that may influence the risk assessment. He is relieved of this obligation if SANITAS did not submit the questionnaire or when,**

yet sometiéndoselo, there are circumstances that may influence the risk assessment and are not included in it.

SANITAS may rescind he contract by declaration addressed to the Policyholder within one month, have knowledge of reservation or inaccuracy of the policy holder. They correspond to SANITAS, unless willful misconduct or gross negligence on its part, the premiums for the current period at the time to make this statement.

If the incident occurs before SANITAS make the declaration to which the preceding paragraph, the provision will be reduced in proportion to the difference between the agreed premium and that

it had applied the true magnitude of the risk been known. If brokered malice or gross negligence of the Policyholder SANITAS will be released from payment of the benefit (Art. 10 of the Law of Insurance Contracts).

**1.3. Notwithstanding the foregoing, the Insured also loses the right to the guaranteed benefit, if the incident occurs before they have paid the premium, (or, in your case the single premium) unless otherwise agreed (Art. 15 of the Insurance Contract Act).**

**1.4. The Policyholder may terminate the contract when the optional table varies**, always affecting the 50% the specialists integrate the national medical box Sanitas, who will provide the Insured at any time in their offices and updated complete list of such specialists for consultation.

**1.5. In the event of inaccurate indication of the date of birth of the Insured, SANITAS may only contest the contract if the true age of the insured at the time of the entry into force of the contract exceeds**

the admission limits established by it.

#### **1.6. Insurance distance contracts:**

In accordance with Article 10 of Law 22/2007 of 11 July Distance Marketing of Financial Services,

he Policyholder shall have a period of fourteen calendar days to withdraw from the distance contract, without giving any reason and without penalty.

The deadline for exercising the right of withdrawal shall begin to run from the date of the conclusion of the Insurance Contract. However, if the Policyholder has not received the Conditional Policy and

the note prior to hiring Insurance Information within to exercise the right of withdrawal will start counting the day of receipt of such information.

## 2. Duration of insurance

**2.1. The date of termination of the Insurance Contract will be** established in their Special Conditions and, at maturity, in accordance with Article 22 of the Insurance Contract Act, be extended for periods of an annuity. However, either party may oppose the extension by written notice to the other party, made with no less advance two months before the completion date of the current period, if SANITAS who performs such notice and one month notice if the Policyholder who performs it.

**2.2. In the event that the insurance policy will be resolved by unilateral will of Sanitas**

**It may not suspend the provision of security where the Insured is in inpatient treatment,**

until the high hospital, unless he renounces the Insured to continue treatment.

Should the insurance policy will be resolved by the Insured, the coverage in any case cease on the date of established maturity the Particular Conditions of the policy, without being applicable the provisions of the preceding paragraph. So if the Insured will be

receiving some kind of providing insured at the time of maturity of the policy, coverage

SANITAS secured cease on that date due without obligation to assume any costs from that date, even if it is derived from an incident occurred during the insurance period.

**2.3. For each Insured, the insurance lapses:**

**a) death.**

**b) For transfer of residence abroad or not reside at least six (6) months a year in**

National territory. The cousin  
It will be up to SANITAS to date

the Insured communicate and attesting that fact.

**2.4. People under 14,**

may only be included in the insurance in case you also secured the person or persons holding parental authority or guardianship, unless otherwise agreed.

## 3. Insurance Premiums

**3.1. The Policyholder is obliged to pay the premium at the time of acceptance of the contract.**

**Contracted coverage will not take effect when the first premium is not granted.**

**3.2. The first premium is due, after signing the contract. Successive premiums shall be due on their due dates.**

**3.3. The Policyholder can request the distribution of annual bonuses paid in half-yearly, quarterly or monthly.**

**In these cases the corresponding surcharge will apply. He fractionation premium does not relieve the Policyholder from his obligation to pay the annual premium complete.**

**3.4. If because of the Policyholder, the first premium has not been paid, SANITAS You are entitled to terminate the contract or demand payment in enforcement proceedings based on the policy, and if it had not been paid before the loss occurs, SANITAS be released from its obligation, unless otherwise agreed duly reflected in the Special Conditions of the Policy.**

**In case of non-payment of the second or successive premiums, or their installments, the**

**SANITAS coverage is suspended one month after the due date.**

**If SANITAS does not claim payment within six months following this**

maturity is understood that the contract is extinguished.

If the contract is not canceled or extinguished according to the above conditions, the coverage will become effective again following the twenty-fourth hour which the taker to become acquainted with the payment of the premium or where appropriate fractions thereof you owed.

The Policyholder forfeited fractionation of the premium has been agreed in the event of default on any receipts, claimable from that moment the total premium agreed for the insurance period remainder.

In the case of fractional premiums, if any accident should occur, Sanitas may deduct from the amounts payable or reimburse the Policyholder or the Insured,

fractions premium

Annuity insurance course still had not been claimed by Sanitas.

**3.5.** If stipulated by the parties applying copayments for certain benefits insured by this policy, the amounts for these copayments will be specifically set forth in the Specific Conditions of the Policy. The amount will be fixed annually by Sanitas. The provisions of this clause in the event of nonpayment of the second and successive premiums or fractions thereof, shall apply in the event of default of the copayment.

**3.6. Except that** the conditions

Particular otherwise, the place of payment of the premium and copayments if any, will be listed in the direct debit specified.

To this end, the Policyholder will deliver data SANITAS bank account payment receipts of this insurance is charged, authorizing the financial entity to settle.

**3.7. SANITAS is only obliged by the receipts issued by the Department or its legally authorized representatives.**

**3.8.** In each renewal of the Insurer may change the annual premium and the amount of the Insured's participation in the cost of services, according to technical and actuarial made and based on the change in the cost of health services calculations, type the frequency of the use of guaranteed benefits including medical and technological innovations that were not covered on the date of initial effect of the policy.

Premiums payable by the Policyholder will vary depending on the age reached by each of the Insureds,

area  
the corresponding geographical instead of  
provision of services, the rates provided by Sanitas on the renewal date of each policy. Such premiums update shall be communicated in writing by Sanitas the Policyholder with at least two months prior to the renewal date.

**3.9.** The Policyholder, received, if any, communication on the SANITAS **varying the amount of the premium for the following annuity, you can choose between the extension of the Insurance Contract or termination thereof to the expiration of the current insurance period.**

In the latter case, the Policyholder shall notify in writing to SANITAS its willingness to terminate his term contractual relationship with at least one month before the expiration date of the current insurance period.

**3.10. Payment** amount of the premium  
was made by the Policyholder to the broker need not be made to SANITAS unless, in return, the broker delivers the Policyholder receipt of premium the insurer.
